DWA_03.5 Knowledge Check_DWA3.2

_____

1. User story(ies) in Gherkin syntax for the "+" button.

As a user, I want to increment counts so I can accurately track and manage the tally
Scenario: User increments counter
GIVEN: User has opened the tally app count app and created a new counter.
WHEN: User clicks on the plus button
THEN: Counter should now be 1

As a user, I want to increment the counter by a specific number (eg. 5) so I can accurately track and manage the tally
Scenario: User increments counter by a specific number (eg. 5)
GIVEN: User has opened the tally count app and changed settings of 'Increment by' to the specific number (eg. 5).
WHEN: User clicks on the plus button
THEN: Counter should be the specific number (eg. 5)

_____

2. User story(ies) in Gherkin syntax for the "-" button.

As a user, I want to decrement counts so I can accurately track and manage the tally.
Scenario: User decrements counter
GIVEN: User has opened the tally count app and created a new counter
WHEN: User clicks on the minus button
THEN: Counter should now be -1

As a user, I want to decrement the counter by a specific number (eg. -5) so I can accurately track and manage the tally
Scenario: User decrements counter by a specific number (eg. -5)
GIVEN: User has opened the tally count app and changed settings of 'Increment by' to the specific number (eg. -5).
WHEN: User clicks on the minus button
THEN: Counter should be the specific number (eg. -5)
